

## Directions:

Print two patterns for a right and left tie. Attach at center back with tape. Pin pattern on fold of fabric, parallel to the grain. Cut one. Cut one of interfacing.

Apply interfacing following manufacture directions.

Fold tie along fold line, with right sides together.

Sew seam at tie ends, leaving enough space unsewn at center back (CB) for turning.

Clip corners and trim seam allowance. Turn right side out working edges into a crisp corner. Press.

Hand stitch neck edge closed. Top stitch 1/8" from all edges.

Attach decorative snaps or small shank button and buttonhole where indicated.
